## EMOTIONS FROM “SALONE DEL MOBILE”

Dear Clients, Agents & Friends,

we would like to share with you our satisfaction for the success we obtained during Milan exhibition, not only for the numerous visits to our stand but also (and especially) for the reactions to our new projects that you had the opportunity to see and appreciate in our closed and reserved area.

# CATALANO

The feeling was really positive and the enthusiastic feedback we received makes us very confident about the near future.

# CATALANO

We'd also like to thank you for the precious help we received during the fair, in taking care and managing the visitors in stand. Really thanks a lot.

# CATALANO

Years ago companies competed on price. After was quality. Now design is important. Design is such a fundamental part of our lives that we cannot go seconds.

Catalano, looking to the future, is advocating a concept of design that incorporates ethics and respect for environment.
